

## Start a Facebook Fundraiser supporting Safe Call Now

Our Safe Call Now volunteers work tirelessly answering calls from first responders at all hours of the day and night.

But many times talking to our volunteers alone is not enough. First responders in crisis need to be connected with critical services to support their mental and physical health, including assisting them in accessing services for PTSD and addiction recovery.

Starting a fundraiser campaign is the best way to support Safe Call Now to help spread the word and help provide these critical services to our first responders in need.
